

notify and receive (07664-07686, 7719) (cont)

- if dest is not waiting to receive a notification
 - set `priv(dest_ptr)->s_sig_pending` (9942) or `priv(dest_ptr)->s_int_pending` (not in the book)
 - set src bit (HARDARE, SYSTEM, or CLOCK) in `priv(dest_ptr)->s_notify_pending` (7751)

Note: 05752 #define priv(rp) ((rp)->p_priv)

notify and receive (07664-07686, 7719) (cont)

- Based on the destination's priv structure, the following messages are created

Three types of notification messages (BuildMess: 7458)

m_source	HARDWARE
m_type	0x1000 HW's #
m2i1	
m2i2	
m2i3	
m2l1	dst's s_int_pending
m2l2	time stamp
	⋮

SYSTEM
0x1000 SY's #
dst's s_sig_pending
time stamp
⋮

CLOCK
0x1000 CL's #
time stamp
⋮
